

Supporting Your Student: A Checklist for Families

College is about defying expectations, breaking the mold, and finding yourself. You have an important role to play in your student's journey to college whether or not you've been to college yourself. Use the timeline below to empower your student as they take this important step and reach higher.

"No matter where you come from, or how much money your family has, I want you to know that you can succeed in college, and get your degree, and then go on and build an incredible life for yourself."

—Michelle Obama, Former First Lady of the United States and first-generation college graduate
